Planned Cost, Quality Products, Delivered On Time.

We began in 1961, providing innovative tread designs for retreaded tires. Since then, we have evolved into a leading manufacturer of service vehicles and material handling systems, serving the tire, mining, construction, material handling, equipment dealer, railroad and utility markets throughout the world.

Since the beginning, IMT has remained unwavering in its commitment to produce the highest-quality products in the industry. IMT's mission is simple: to be a successful, people-oriented company serving global equipment markets. As an organization, we strive to become your supplier of choice by offering products and services that set the standard of excellence in quality, value and performance.

We stay close to our markets. IMT pays strict attention to detail when it comes to product design, manufacturing, testing and support. Customer-driven features are incorporated into each of our products to fit your specific application needs.

With every product we manufacture, we provide the most reliable, longest-lasting equipment available — we think you'll feel that way too. We voluntarily meet and exceed American industry standards. From a rugged testing and quality control process to computerized flame cutters, punching and cutting units, multi-axis machining centers, certified welders and topnotch engineers, IMT delivers a total solution you can count on for your application.
