A subsidiary of Mercy Health Center of Central Iowa

Des Moines  
**SPORTS  
MEDICINE**  
Industrial Rehabilitation & Physical Therapy

**The Des Moines Sports Medicine Center was founded in 1984 by Scott E. Harmon, P.T., A.T., C., and provides Central Iowa businesses with industrial rehabilitation and on-site consultation; direct sports medicine assistance to area high schools; and consultation services to several area colleges.**

**A commitment to community outreach and excellence in patient care allowed the practice to grow in size and reputation. Today, the center includes facilities in two locations in the Des Moines metro area. In October 1993, Mercy Health Center of Central Iowa acquired the practice as part of its area-wide commitment to comprehensive patient care.**

**With the networking support of Mercy, and a quality staff of physical therapists and athletic trainers, the Des Moines Sports Medicine Center provides immediate, state-of-the-art, cost-efficient service that helps get patients *back in the game!***
